Artist: **Gail Naden**

Being recognised as the first people who occupied the land has been a struggle for our people to claim back what was already ours. Fifty years ago the Yolngu people worked together and fought for land rights. Claiming Our Ground combines two digital images, one depicting the legs of men walking around the land and one of water particles embossed to create crevices. Ochre colours were added and circles of communities were drawn to give the impression of distances occupied by our fore fathers and mothers.
